SUMMARY Passionate about software development with a strong interest in becoming a full-stack developer, I enjoy discovering new technologies and frameworks through hands-on projects. My commitment to learning drives me to continuously expand my skill set and knowledge base. I am determined to take on new challenges and seize opportunities to grow and innovate in the tech field. I look forward to connecting with fellow developers to exchange ideas and learn from their experiences

WORK EXPERIENCE **Database Enginner (Intern), First Cambodia** **May 2024 - Present**

- Learn and applied Linux commands
- Explored Oracle Database Architecture
- Installed and Configured Oracle Database 19c
- Set up and Configured Container Database, Pluggable Database with Tnsnames
- Conducted data import/export using Datapump
- Applied patches to databases
- Performed database backups and restores with RMAN
- Maintenance and Monitor databases using Autonomous Health Framework (AHF)

EDUCATION **Bachelor of Science in Information Technology Management**
American University of Phnom Penh

Bachelor of Science in Computer Science
Fort Hays State University

CERTIFICATION

- [AWS Academy Cloud Foundations](#)
- [Digital Skills: Artificial Intelligence](#)
- [Oracle Cloud Data Management Foundations](#)
